RE: Letter of Support for Squannacook River Rail Trail

To Whom it May Concern:

I am the owner and operator of Evans on the Common, a local family owned business in Townsend Massachusetts. We are a 35 year old retailer of footwear, clothing, and outdoor goods.

Having the rail trail in town will help our business as it promotes activities that use our products. The Squannacook River Rail Trail project will also be a great asset to the people of Townsend as well. It will provide a safe and family friendly recreational outlet as well as a way to experience beautiful areas along the Squannacook River .

Much needed bicycle and pedestrian access to North Middlesex Regional High School will also be beneficial for the community. The Rail Trail will allow members outside of our community to experience the beautiful historical Townsend Massachusetts and support local businesses like ours.

Sincerely,

Matthew Evans
